

# The Complete Refrigerant Service for the Middle East

Leading Supplier of High Quality Refrigerants to the Refrigeration and Air Conditioning Industries

## Refrigerants

Harp Middle East was established to provide a complete refrigerant service to the Middle East and is the leading supplier of refrigerants to the region.

Harp has substantial bulk storage facilities, enabling continuity of supply, and chilled storage areas which ensures that low pressure refrigerants are stored safely regardless of exterior temperature

## Nutritional Products

Harp Middle East is the exclusive distributor in the Middle Eastern region for the Purac® range of lactic acid derivatives, and is also the exclusive distributor for Carinsa's range of extensive flavours used as nutritional supplements in the food industry.

Typical applications of these products include mineral fortification, pH regulation, meat yield improvers, carcass decontamination and flavouring.

## Personal Hygiene

Harp Middle East is the exclusive distributor in the Middle Eastern region for the Purac® range of lactic acid derivatives, and is also the exclusive distributor for Carinsa's range of fragrances.

Typical applications for these products include personal hygiene, pharmaceutical, domestic household and janitorial solutions

## Environmental Services

The recovery of refrigerant is now an essential part of everyday life in the refrigeration and air conditioning industry.

Harp Middle East is able to professionally reclaim refrigerant gases back to virgin specification thus providing an economic advantage to customers with contaminated refrigerant in systems
